## **Policy rule of the Minister of Economic Affairs of 4 July 2014, no. WJZ/14112617, on the imposition of administrative fines by the Netherlands Authority for Consumers and Markets (2014 ACM Fining Policy Rule, amended on July 1, 2016)**

The Minister of Economic Affairs,

Considering Section 21 of the Framework Act on Autonomous Administrative Authorities, Section 4.21, paragraph 1 of the Public Procurement Act 2012, Section 3.8, paragraph 1 of the Public Procurement Act with regard to Defense and Security Matters, Section 77i of the Dutch Electricity Act 1998, Section 60ad of the Dutch Gas Act, Sections 12l, paragraph 3, and 12m, paragraphs 1 and 2 of the Establishment Act of the Netherlands Authority for Consumers and Markets (ACM), Sections 57, 70a, preamble and part a, 71, 73, 74, preamble and parts 1 through 5, under a, and 75, preamble and part a, of the Dutch Competition Act, Section 49, paragraphs 1 and 2 of the Postal Act 2009, Section 15.4, paragraphs 1 through 3 of the Dutch Telecommunications Act, Section 18, paragraph 6 of the Dutch Heat Act, Section 2.9, paragraph 1, part b in conjunction with Section 2.15 of the Dutch Act on Enforcement of Consumer Protection, Section 22 of the Act on the implementation of EU directives on energy efficiency, and Section IXC, paragraph 4, preamble and part a, and paragraph 5, preamble and part a of the Act of 23 November 2006 amending the Electricity Act 1998 and the Gas Act in connection with detailed rules regarding independent grid administration (Dutch Bulletin of Acts and Decrees 2006, 614);

Decides:

### **CHAPTER 1 DEFINITIONS**

#### **Article 1.1**

1. In this policy rule, the following definitions apply:

*ACM*: the Netherlands Authority for Consumers and Markets, as referred to in Section 2 of the Establishment Act of the Netherlands Authority for Consumers and Markets;

*Basic fine*: the amount that serves as the basis for determining the level of an administrative fine that is to be imposed, based on:

- a. A percentage of the relevant turnover, or

b. An amount within the range of the fine category linked to a violation;

*relevant turnover*: In all situations, the turnover in the last full calendar year in which the violation was committed, or the calendar year in which the largest part of the violation took place if the violation took place over multiple calendar years, multiplied by a factor of 1/12 for each month that the violation lasted, where a period shorter than one month will be rounded up to one month;

*annual turnover*: the turnover of the offender as referred to in Section 12o of the Establishment Act of the Netherlands Authority for Consumers and Markets;

*TFEU*: Treaty on the Functioning of the European Union.

2. If a violation lasted shorter than one year, the entire period that the violation lasted will be taken into account when determining the relevant turnover.

#### **Article 1.2**

1. The relevant turnover will be rounded off to the nearest EUR 1,000.
2. The administrative fine that has been set will be rounded down to the nearest EUR 500.

## **CHAPTER 2 CONSUMERS, ENERGY, COMPETITION, POSTAL SERVICES AND TELECOMMUNICATIONS**

### *§ 2.1 General*

#### **Article 2.1**

1. If ACM establishes that an offender has committed multiple violations, it may, rather than imposing a fine for each individual violation, impose an administrative fine for these violations combined.
2. In derogation of the first paragraph, ACM imposes, in principle, a single administrative fine on practices that constitute a violation of both Section 6, paragraph 1 or Section 24, paragraph 1 of the Dutch Competition Act, and of Articles 101 or 102 of the TFEU.

#### **Article 2.2**

The level of the basic fine will, insofar applicable, in any case be based on:

- a) The seriousness of the violation;
- b) The circumstances in which the violation was committed; and
- c) The duration of the violation.

### *§ 2.2 Specific violations with a basic fine based on a percentage of the relevant turnover*

#### **Article 2.3**

1. In the event of violation of Section 6, paragraph 1 and Section 24, paragraph 1 of the Dutch Competition Act, Articles 101 and 102 of the TFEU, and in situations where ACM is authorized to impose an administrative fine under Section 49, paragraphs 1 and 2 of the Postal Act 2009, and Section 15.4, paragraph 2 of the Dutch Telecommunications Act, ACM determines a basic fine based on the relevant turnover.
2. If ACM is unable to determine the relevant turnover based on the information provided by the offender, ACM may estimate this turnover.
3. In the event of an illegal agreement in connection with a tender process (bid-rigging), ACM may designate as relevant turnover, for each participant involved in such an agreement, the turnover or a proportionate part thereof that can be realized based on the bid for which the contract was awarded.
4. If the violation was committed by an association of undertakings, the relevant turnover of the constituent undertakings may be taken into account.
5. If ACM deduces from information at its disposal that the relevant turnover insufficiently reflects the actual economic value of the practice that is to be

sanctioned, ACM may adjust the relevant turnover that is to be taken into account for said information.

6. As part of specific prevention, ACM may, in view of the offender’s weight as expressed by the offender’s total annual turnover in the financial year preceding the fining decision, raise the relevant turnover that is to be taken into account.

**Article 2.4**

ACM sets a basic fine between 0 and 50 percent of the offender’s relevant turnover.

*§ 2.3 Other violations with a basic fine based on a permillage of the total annual turnover*

**Article 2.5**

1. If Article 2.3, paragraph 1 is not applicable, ACM determines the basic fine within the ranges of the following fining categories, if, according to a statutory provision, a maximum fine based on a percentage of the turnover can be imposed on an offender:

Category	Lower limit of the range		Upper limit of the range	
	Fixed amount	or ‰ of the turnover, whichever is higher	Fixed amount	or ‰ of the turnover, whichever is higher
category I	EUR 15,000	0.25 ‰	EUR 150,000	2.5 ‰
category II	EUR 75,000	0.5 ‰	EUR 300,000	5 ‰
category III	EUR 150,000	0.75 ‰	EUR 600,000	7.5 ‰
category IV	EUR 300,000	2.5 ‰	EUR 650,000	25 ‰
category V	EUR 400,000	5 ‰	EUR 700,000	50 ‰
category VI	EUR 500,000	7.5 ‰	EUR 800,000	75 ‰

2. In Annex 1, the provisions with regard to which an administrative fine can be imposed if they are violated, have each been classified into one or more of these fining categories.
3. If, according to ACM, the classification into a particular fining category as referred to in paragraph 2 does not provide for an appropriate fine in an individual case, the higher or lower adjacent category may be applied.
4. The turnover that is taken into account for setting the maximum basic fine is determined as follows:
  - a. 100 (one hundred) percent of the annual turnover up to EUR 250,000,000 is

- taken into account;
- b. 10 (ten) percent of the annual turnover between EUR 250,000,000 and EUR 1,000,000,000 is taken into account; and
  - c. 2 (two) percent of the annual turnover over EUR 1,000,000,000 is taken into account.

#### **Article 2.6**

1. When applying Article 2.5, paragraph 4, ACM uses as basis the turnover generated in the Netherlands.
2. In derogation of paragraph 1, ACM uses as basis the global turnover if, according to ACM, using the turnover generated in the Netherlands does not allow setting an appropriate fine.
3. Paragraph 2 does not apply to violations of the Postal Act 2009 or the Dutch Telecommunications Act.
4. With regard to the geographical allocation of the turnover, ACM adheres to the principles set out by the European Commission in its Consolidated version of the Commission Regulation (EC) No 802/2004 of 21 April 2004 implementing Council Regulation (EC) No 139/2004 on the control of concentrations between undertakings (OJ 2008, C 95).
5. If, according to ACM, the turnover insufficiently reflects the actual economic power of the offender, ACM may set the level of the basic fine in accordance with that economic power.
6. If ACM is unable to determine the relevant turnover on the basis of the information provided by the offender, ACM may estimate this turnover.
7. In the event of a violation of Section 34, paragraph 1 of the Dutch Competition Act, the turnover is determined by adding up the annual turnovers of each of the undertakings, or the parts thereof, involved in the concentration, if the concentration had not been realized yet in the year preceding the decision to impose the administrative fine.

#### *§ 2.4 Imposing administrative fines on natural persons*

#### **Article 2.7**

1. When imposing an administrative fine on a natural person for giving instructions with regard to or exercising de facto leadership over a violation, ACM may, when determining any aggravating or mitigating circumstances as referred to in Articles 2.9 and 2.10, take into account the extent of the natural person's involvement in the

committing of the violation, and the natural person's position within the market organization that employs or used to employ him or her. And ACM sets a starting point for the fine that is, at the least, related to the seriousness of the violation, and to the offender's income and wealth in order to come to an administrative fine that has a sufficiently deterrent effect both from a general preventive perspective as well as a specific preventive perspective.

2. In the case of any of the violations listed below, ACM sets the basic fine for natural persons within the following ranges:
  - a. EUR 0 – EUR 50,000 for giving instructions with regard to or exercising de facto leadership over violations that fall in categories I and II;
  - b. EUR 40,000 – EUR 250,000 for:
    - i. Giving instructions with regard to or exercising de facto leadership over violations that fall in category III;
    - ii. Giving instructions with regard to or exercising de facto leadership over violations by a market organization with an annual turnover of less than EUR 10,000,000 of
      1. Provisions that fall in categories IV, V, and VI;
      2. Section 6 of the Dutch Competition Act or Article 101 of the TFEU;
  - c. EUR 80,000 – EUR 500,000 for giving instructions with regard to or exercising de facto leadership over violations by a market organization with an annual turnover between EUR 10,000,000 and EUR 250,000,000 of:
    - i. Provisions that fall in categories IV, V, and VI;
    - ii. Section 6 of the Dutch Competition Act or Article 101 of the TFEU;
    - iii. Section 24 of the Dutch Competition Act or Article 102 of the TFEU;
    - iv. Section 13b through Section 13k of the Dutch Postal Act 2009; or
    - v. Provisions for which ACM is authorized to impose administrative fines under Section 15.4, paragraph 2 of the Dutch Telecommunications Act.
  - d. EUR 120,000 – EUR 900,000 for giving instructions with regard to or exercising de facto leadership over:
    - i. Violations by market organizations with an annual turnover of over EUR 250,000,000 of:
      1. Provisions that fall in categories IV, V, and VI;
      2. Section 6 of the Dutch Competition Act or Article 101 of the TFEU;
      3. Section 24 of the Dutch Competition Act or Article 102 of the TFEU;
      4. Section 13b through Section 13k of the Dutch Postal Act 2009; or
      5. Provisions for which ACM is authorized to impose administrative fines under Section 15.4, paragraph 2 of the

Dutch Telecommunications Act.

- ii. Violations that fall within the range as referred to in this paragraph, under c, and where, in a concrete case, considering its special circumstances, fining within the range, as referred to in this paragraph, under c, as part of specific prevention, would not provide for an appropriate fine.
3. If, according to ACM, the classification into a particular fining category as referred to in paragraph 2 and 3 does not provide for an appropriate fine in a specific case, the higher or lower adjacent category may be applied.

#### *§ 2.5 Aggravating and mitigating circumstances*

##### **Article 2.8**

1. When setting the administrative fine, ACM takes into consideration any aggravating or mitigating circumstances.
2. ACM, in all reasonableness, determines the degree to which the circumstance in question results in an increase or decrease in the basic fine.

##### **Article 2.9**

1. Aggravating circumstances, in any event, include:
  - a. the circumstance that ACM or another competent authority, including the European Commission or a judicial body, has previously established irrevocably that the offender committed the same or a similar violation;
  - b. the circumstance that the offender hindered ACM's investigation;
  - c. the circumstance that the offender instigated or played a leading role in the committing of the violation;
  - d. the circumstance that the offender used or made provision for control methods or coercive methods for the continuation of the practice to be sanctioned.
2. In the event of a repeat offense as referred to in paragraph 1 under a, ACM increases the basic fine by 100%, unless the result would be unreasonable in view of the circumstances of the specific case.

##### **Article 2.10**

Mitigating circumstances, in any event, include:

- a) the circumstance that the offender, other than under the Leniency Policy Rule, provided ACM with a degree of cooperation that went beyond the offender's statutory obligation;
- b) the circumstance that the offender, of his own accord, provided full compensation to

the parties injured by the violation.

**Article 2.11**

When imposing an administrative fine on a natural person for giving instructions with regard to or exercising *de facto* leadership over a violation, ACM may, when determining any aggravating or mitigating circumstances as referred to in Articles 2.9 and 2.10, may take into account the extent of the natural person's involvement in the committing of the violation, and the natural person's position within the market organization that employs or used to employ him or her.

*§ 2.6 Setting the administrative fine in exceptional circumstances*

**Article 2.12**

In derogation of the previous articles, ACM may impose a symbolic administrative fine if it believes such is warranted by the special circumstances of the case.

## CHAPTER 3 PUBLIC PROCUREMENT

### Article 3.1

1. This chapter applies to violations for which ACM, under Section 4.21, paragraph 1 of the Public Procurement Act 2012, or Section 3.8, paragraph 1 of the Public Procurement Act with regard to Defense and Security Matters, is authorized to impose administrative fines.
2. Chapter 2 does not apply to violations as referred to in the first paragraph.

### Article 3.2

1. In this chapter, the following definitions apply:
  - I. *Suspension period*: the period, as referred to in Section 2.217, paragraph 1 or Section 2.131 of the Public Procurement Act 2012, or the term, as referred to in Section 2.118, paragraph 1 or Section 2.12 of the Public Procurement Act with regard to Defense and Security Matters, respectively.
  - II. *Agreement*: an agreement to which Section 4.15, paragraph 1 of the Public Procurement Act 2012, or Section 3.1, paragraph 1 of the Public Procurement Act with regard to Defense and Security Matters applies.

### Article 3.3

1. The level of an administrative fine amounts to that part of the agreement that has not been rescinded, multiplied by the fining percentage.
2. The following are understood as 'not rescinded':
  - a. That part of the agreement that has not been rescinded;
  - b. That part of the agreement that has been rescinded, but the rescission of which has been rendered inoperative.
3. If the value of the agreement is higher than the value of the contract as previously estimated by the contracting authority or the special-industry company, that estimated value, when applying the first paragraph, is used for that part of the agreement that has not been rendered inoperative as a result of the rescission of the agreement.

### Article 3.4

1. The value of the agreement is determined based on the following criteria:
  - a. The value of the agreement has been determined in a final ruling by a court;
  - b. If part a cannot be applied, the value of the agreement is calculated based on a final ruling by a court;
  - c. If part b cannot be applied, the value of the bid or of similar bids is an indication of the value of the agreement;

- d. If part c cannot be applied, the documents in possession of the contracting authority or the special-industry company relating to the tender process that is or was the basis for the agreement are an indication of the value of the agreement;
  - e. If part d cannot be applied, the value of the agreement shall be determined on the basis of past use or usage of similar contracts by the contracting authority or the special-industry company;
  - f. If part e cannot be applied, the value of the agreement shall be determined on the basis of statements of undertakings that usually carry out similar assignments.
2. The value of that part of the agreement that has not been rescinded shall be determined in the manner as described in paragraph 1.

#### **Article 3.5**

1. If the contracting authority or the special-industry company wrongfully failed to announce in advance the assignment, the fining percentage shall be 15 percent.
2. If the circumstances of a specific case so dictate, ACM may, in derogation of the first paragraph, set a lower fining percentage.
3. The fining percentage, as referred to in the first paragraph, shall, in any case, be set if a final ruling by a court reveals there are mitigating circumstances with regard to the absence of said advance announcement.
4. If a partial rescission of an agreement is based on Section 4.15, paragraph 1, under c of the Public Procurement Act 2012, or Section 3.2, paragraph 1, under c of the Public Procurement Act with regard to Defense and Security Matters, paragraphs 1 and 2 shall apply *mutatis mutandis* to the setting of the fining percentage.

#### **Article 3.6**

1. If the contracting authority or the special-industry company has concluded the agreement during the suspension period, the fining percentage shall be 10 percent.
2. If the circumstances of a specific case so dictate, ACM may, in derogation of the first paragraph, set a lower or higher fining percentage.
3. The fining percentage, as referred to in the first paragraph, shall, in any case, be increased, if a final ruling by a court reveals there are aggravating circumstances with regard to the failure to observe the suspension period.
4. The fining percentage, as referred to in the first paragraph, shall, in any case, be

reduced, if a final ruling by a court reveals there are mitigating circumstances with regard to the failure to observe the suspension period.

## **CHAPTER 4 TRANSITIONAL AND FINAL PROVISIONS**

### **Article 4.1**

To violations with regard to which a statement of objections had been drawn up before this policy rule came into effect, the Policy Rules of the Minister of Economic Affairs on the imposition of administrative fines by ACM shall continue to apply, as they were applicable immediately preceding that date.

### **Article 4.2**

The Policy Rules of the Minister of Economic Affairs on the imposition of administrative fines by the Netherlands Authority for Consumers and Markets [*of April 24, 2013*] shall be repealed.

### **Article 4.3**

This Policy Rule shall enter into force on August 1, 2014.

### **Article 4.4**

This policy rule shall be referred to as: 2014 ACM Fining Policy Rule (*Boetebeleidsregel ACM 2014*).

This policy rule shall be published in the Dutch Government Gazette with its explanatory notes.

The Minister of Economic Affairs,  
H.G.J. Kamp
